Name(s) of others who might be involved in ordering, menu plans, promotion, etc.:

General Questions for the School Food Service Director

1. What are some of your reasons for wanting to offer locally grown food?
(There are many reasons, including improving color/taste/variety of food, increasing consumption of fruits and vegetables; improving freshness or nutritional value of foods; increasing overall meal participation rate; supporting local farms or economy; gaining positive public relations for the food service; building partnerships within the school system or the community, etc.).

2. How might you use locally grown food in your school?
(There are many ways, including serving locally grown foods on a limited basis, such as at only one school or in one meal; highlighting one or two local foods on weekly, monthly, or quarterly basis; using select locally grown foods whenever they are available; using as much locally grown food whenever it is available; using locally grown foods for taste tests, special events/meals, or educational programs).

3. What is the level of support for farm to school from within your school community (administration, teachers, staff, students, parents, school board, others)?

School Food Service Details

4. Number of lunches served per day (including regular school year and summer):

5. Number of breakfasts served per day (including regular school year and summer):
